

2012 KRYDERACING REGIONAL CHAMPIONSHIP SERIES

The 30th edition of the series has been finalized and information is available at www.kryderacing.com and on Facebook. Thirty years is a long time and many things have changed in all of your lives. The Kryderacing Series has also had its changes but we have tried to stay as close as possible to its original intention. That initial intention was to recognize talented SCCA Regional drivers competing at Nelson Ledges Road Course for their accomplishments. One major change has been the addition of other race tracks. The Steel Cities Region moved their events from Nelson to BeaveRun (now Pittsburgh International Race Course) when track construction was completed and requested they still be included in the Series. Last year the Finger Lakes Region could not run their "Westward Ho" event at Nelson, but they were hopeful of returning in the future. They requested inclusion of their Watkins Glen event, "The Fun One", in the 2011 series in order to continue the connection. This year, "Westward Ho" is back on the schedule, along with "The Fun One". It is hoped drivers at these three venues venture to one of the neighboring facilities to enjoy something different, and possibly pick up a few Kryderacing points along the way.

There are several changes for 2012. Events will be run at Nelson Ledges Road Course, Pittsburgh International Race Course (formerly BeaveRun Motorsports Complex), and Watkins Glen International.

The 2012 Kryderacing Championship Series schedule is as follows:

June 23-24	Finger Lakes Region "Westward Ho" Double Regional at Nelson Ledges
July 28-29	Steel Cities Region Restricted Regional at PittRace
August 4-5	Mahoning Valley Region MARRS Single Regional at Nelson Ledges
September 15-16	Finger Lakes Region "The Fun One" Double Regional at Watkins Glen
September 29-30	Mahoning Valley Region Double Regional at Nelson Ledges
November 17	Kryderacing Series Annual Awards Banquet

There is always the possibility of schedule changes. Any event additions will be handled per previous guidelines. Prior to the first event (June 23-24) Kryderacing reserves the right to make additions. After the first event additions must be approved by all currently participating Regions.

Points will continue as in the past. Double Regional weekend events will award points in a single race per Regional based on a 9-6-4-3-2-1 plus one point for each starter beaten in class. Single Regional weekend events such as the Restricted Regional and MARRS event will award double points in the featured race of the weekend. All competitors in all events earn points. But to receive an annual award the competitor must be a paid entrant in events put on by a minimum of two of the presenting Regions. Complete 2012 rules, along with points updates and other information will be posted on Facebook and www.kryderacing.com. We will also continue to maintain an email listing for all competitors in order to keep them informed of series updates.

Continued participation by companies associated with the series is anticipated and will be confirmed in the near future. Hoosier Tire, Carbotech Brakes, Sunoco Race Fuels, and Mazza Wineries have been great associates, helping throughout past seasons and adding significantly to the banquet festivities. And we are always working on new additions. All associates and their requirements for receiving contingencies will be posted in the near future. Their decals (and Kryderacing Series stickers), patches, etc will be available through Kryderacing at no charge. Competitors are encouraged to display them.

At the banquet we will continue to honor workers and mechanics who contribute so much to these events. The banquet is also a time of announcements for the upcoming year. Regions, race tracks, associated sponsors, and individuals are welcome to tell attendees what to look forward to in the coming year.
